</table>

In addition to the detailed fields in the table above; "0", "8" and "9" may be used (see also the guidelines in Sections 7 and 8):

"8" is used at the narrow and detailed field level when classifying inter-disciplinary or broad programmes and qualifications to the broad field in which the greater part of the intended learning time is spent (e.g. 0289 "Inter-disciplinary programmes and qualifications involving arts and humanities"). "0" is used when no further information is available about the field than the field description at the next higher level of the classification hierarchy (i.e. at the broad field or at the narrow field level).

"9" is used at the detailed field level when classifying programmes and qualifications which do not fit within any of the listed detailed fields.

"9999", "999" or "99" can be used in data collections, especially in surveys if the field is not known.
